

48' COCKPIT MOTOR YACHT

By taking the classic design of the 48' Cockpit Motor Yacht, reworking the bridge to give it a rakish new angle and adding an optional radar arch, Tollycraft has melded the best of the old and the new into an ideal cruising yacht.

The accommodations have been carefully planned with luxury cruising in mind. The large, inviting salon is accessible from either side deck through sliding doors and is versatile enough for a variety of room arrangements. Large windows on three sides of the salon further emphasize the open, spacious feeling. The lower helm station, with its teak control panel, blends unobtrusively with the rest of the decor.

Separating the salon from the galley is a convenient breakfast/snack bar — perfect for buffet style hors d'oeuvres. Because the galley is lower than, but still open to, the salon, your first mate can be busy preparing meals without feeling shut off from the rest of the group. Eye level windows in the galley prevent that "closed in" feeling. Every modern kitchen convenience is provided for the cruising chef: full-size refrigerator/freezer, 3-burner range with oven, overhead microwave with fan, trash compactor, instant hot water dispenser and enough cabinet and counter space to make this a truly functional gourmet galley. Directly across from the galley and completely separate from the salon is the full-size dinette, which easily converts into a double berth.

Forward of the galley is the private guest stateroom with adjoining head. This stateroom features a V-berth arrangement, teak bookshelves above each berth, hanging locker, and plenty of storage space for all of your guests' gear.

The owner's stateroom is located aft of the salon for complete privacy. A walkaround queen-size berth lets you stretch out in comfort. Your private head has a stall shower with elbow room. Two hanging lockers, vanity table with mirror, and lots of cabinet and shelf space provide more than enough storage for you and your first mate — even on those long tube cruises which the 48' seems to inspire!

Up top, you'll find a spacious bridge with plenty of seating for you and your guests. Teak

48' Cockpit Motor Yacht running at 19.5 knots, driven by Twin 6-71N Detroit Diesels, 310 HP each.

handrails protect from bow to stern, as well as up on the bridge and sun deck. The cockpit, with its transom door and step, simplifies swimming, fishing and dinghy sailing from the boat. Standard equipment includes a 12.5 kw generator, oil change pump system and an anchor windlass with anchor and rode. Tollycraft even provides a spare shaft storage tube accessible from the transom.

The 48' Cockpit Motor Yacht... a Tollycraft born for luxury cruising.

Weight (Average Displacement)	40,000 lbs.	18,144 kg
Sleeping Accommodations	6 to 7	

Recognized as the sportier cousin of the 48' Cockpit Motor Yacht, the 48' Convertible Sedan is also built to take a heavier engine option. The huge 10'x12' cockpit provides more than enough room for you to do battle with the liveliest of sportfish. And tough Tollycraft construction — cored deck and integrally bonded hull and cabin — insures a strong, tight, cohesive unit designed to take most anything you care to dish up in the way of rough, pounding seas.

The tenacious, seaworthy exterior of the 48' Convertible is matched only by its handsome, thoughtfully designed interior. The spacious main salon, with its hide-a-bed sofa and versatile hi-lo table, is completely encircled by windows, including a sliding glass door aft. A beautifully crafted teak cabinet serves as a wet bar, icemaker and liquor cabinet for dockside entertaining. The galley is located a few steps down from the main salon, with a breakfast bar tucked between the two. There's plenty of counter space and all of the conveniences needed to cook meals that will satisfy those hungry fishermen.

Just forward of the galley you'll find the guest stateroom and head. The double berth has an overhead bunk that swings down to form a comfortable back rest. An amply sized hanging locker provides your guests with a place to stow their gear.

The owner's stateroom forward rivals most aft staterooms in roominess and deluxe appointments. The walkaround queen-size berth, with drawer below, is framed by a padded, semi-circular headboard/shelf system. A large, double hanging locker and dresser with shelftop give you plenty of room for your belongings. Your private head has its own stall shower with a convenient shelf seat.
